**Subject:** follow up on [REDACTED] discovery package

Ladies,

This note is a follow up to the cover letter I presented for the [REDACTED] discovery package (State Lab nos. [REDACTED] and [REDACTED]). Although I cc'd the package correctly to Kate as my confirmatory chemist, the cover letter incorrectly cites Annie Dookhan as the recipient of the package. I overlooked the notation on the template I used to work up the cover letter.

For your convenience, I am resending the package with the correct cc citation in the next e-mail following this one.
